PHYS 181L Physics and Astronomy Research Rotation (1)

Students will sample research activities in different labs in the Department of Physics and Astronomy. Students learn how scientists frame research problems and design experiments to address these problems. This is an experiential learning course.

Prerequisite(s): Declared major in Astronomy, Astrophysics, Meteorology or Physics; PHYS 111 and PHYS 111L (or HONS 157 and HONS 157L).

Course Frequency: Occasional
